CONSOLIDATED FINANCIAL REPORT FOR THE HALF - YEAR ENDED 31 DECEMBER 2008

OROCOBRE LIMITED ABN 31 112 589 910

DIRECTORS' REPORT

Your directors submit the financial report of the consolidated group for the half-year ended 31 December 2008.

Directors

The following persons were Directors of the company during or since the end of the half year:

N. F. Stuart P.A. Crawford

R. P. Seville J. Tan

D. C. O'Neill

Review of Operations

The group's operating loss for the half year, after applicable income tax was \$487,830 (2007: \$319,987). Exploration and evaluation expenditure during the period totalled \$1,168,219 (2007: \$208,701).

Olaroz Lithium - Potash Project

During the period, the company's first drilling programme was completed at the Olaroz Lithium-Potash project in the Jujuy province in north-west Argentina. The objectives of the programme were to provide information on sub-surface geology; to sample solutions at depth to determine lithium and potassium grades; and provide information on the hydrogeological properties of the salt lake through pump testing and other test work.

By the end of the period, composite brine samples had been collected from the nine cased holes and three drawdown tests had been completed.

Work to date has shown the geology to be a recent sedimentary sequence composed of inter-bedded sands, clays and halite units beneath the current halite crust. Drilling has also shown the salt lake to be at least 200m deep, the depth of the deepest drill hole.

Larger scale batch processing test work has continued at facilities both at Olaroz and in Salta. The programme is nearly completion and will provide the process flow sheet and mass balance data for the scoping study currently being advanced.

With the completion of the geological interpretation and brine sampling from specific depths, it is expected that there will be sufficient information to allow a resource estimate to be completed. The batch process test work is near completion and once done, work on the cost and engineering aspects of the scoping study can be completed.

It is expected that both resource estimate and scoping study will be completed by April 2009. A key part of the scoping study will be to scope the work required to complete a feasibility study.

Subsequent Events

Since the end of reporting period, the Group withdrew from an agreement to acquire 100% of two cateos (exploration license) and one minas (mining lease) making up the "Marayes Gold Project" in San Juan Province of Argentina. Amounts previously capitalised in respect of this project have been written-off at balance date.

In January 2009, the parent entity issued 165,000 new shares at an issue price of 23 cents each in part payment of an option payment due in relation to the Salar Olaroz project tenements.

In February 2009, the Company entered into a joint venture arrangement focussing on the exploration and exploitation of minerals found in salars (salt lakes) in South America.

No other material matters or circumstances have arisen since balance date.

Notes to the Financial Statements for the half year ended 31 December 2008

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

This general purpose financial report for the interim half-year reporting period ended 31 December 2008 has been prepared in accordance with the Corporations Act 2001, Australian Accounting Standard AASB 134: Interim Financial Reporting, Australian Accounting Interpretations and other authoritive pronouncements of the Australian Accounting Standards Board.

This interim financial report does not include full disclosures of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report of Orocobre Limited as at 30 June 2008, together with any public announcements made by Orocobre Limited during the interim reporting period in accordance with the continuous disclosure obligations of the Corporations Act 2001.

The accounting policies and methods of computation adopted are consistent with those of the previous financial period as disclosed in the 30 June 2008 annual report.

Reporting Basis and Conventions

MILIO BSIN IBLIOSIBO IOL

The half-year report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

The interim financial report was approved by the Board of Directors on 13 March 2009.

NOTE 2: PROFIT FOR THE PERIOD	Half year ended 31 Dec 2008 \$	Half year ended 31 Dec 2007
The following revenue and expense items are relevant in explaining the financial performance for the interim period:		
Interest received from other persons	169,192	27,378
Depreciation of plant and equipment Write-off of exploration expenditure	123 218,397	- 8,071
NOTE 3: EXPLORATION AND EVALUATION ASSET	31 December 2008 \$	30 June 2008 \$

NOTE 7: CONTINGENT LIABILITIES

There were no contingent liabilities at the end of the reporting period.

NOTE 8: RELATED PARTY TRANSACTIONS

The company undertakes transactions with related parties in the normal course of business. In the current period, arrangements with related parties continue to be in place, consistent with those reported in the 30 June 2008 annual financial report.

NOTE 9: EVENTS AFTER BALANCE SHEET DATE

Since the end of reporting period, the Group withdrew from an agreement to acquire 100% of two cateos (exploration licences) and one minas (mining lease) making up the "Marayes Gold Project" in San Juan Province of Argentina. Amounts previously capitalised in respect of this project have been written-off at balance date.

In January 2009, the parent entity issued 165,000 new shares at an issue price of 23 cents each in part payment of an option payment due in relation to the Salar Olaroz project tenements.

In February 2009, the Company entered into a joint venture arrangement focussing on the exploration and exploitation of minerals found in salars (salt lakes) in South America.

There have been no other significant events since balance date.

NOTE 10: SEGMENT REPORTING

The company operates internationally, in the mineral exploration industry. The exploration focus is on Argentina.

Independent auditor's review report to the members of Orocobre Limited

We have reviewed the accompanying half-year financial report of Orocobre Limited and Controlled Entities (the consolidated entity), which comprises the consolidated balance sheet as at 31 December 2008 and the income statement, statement of changes in equity and cash flow statement for the half-year ended on that date, a statement of accounting policies, other selected explanatory notes and the directors' declaration of the consolidated entity, comprising the company and the entities it controlled at the half-year's end or from time to time during the financial half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of an Interim Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2008 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Orocobre Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independent auditor's review report to the members of Orocobre Limited (continued)

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, provided to the directors of Orocobre Limited on 13 March 2009, would be in the same terms if provided to the directors as at the date of this auditor's review report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Orocobre Limited and Controlled Entities is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2008 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.
